

## **MY APPOINTMENT WITH GOD**

It is indeed the height of imagination to have some time with God and to have some imaginative interactions. Even so, it is the hidden unfulfilled desire if every human being, as the usual saying goes – “If I ever get a chance to meet the God” -I personally don’t know how many times, I have uttered the same. I have so many things to ask and tell the almighty - So many questions, so much of favor to ask for! Suddenly on a mystified night, the desire got its wings and I have been bestowed with an appointment with the god.

The question was where the meeting should take place? I insisted and requested the venue at heaven, rather than God coming to the earth! Obviously, I have my own reasons of visiting and seeing the heavenly beauties! On the night of the D-day, I started my journey, with all the excitement and mind entangled with unknowns of unknown. The Journey was on exhilarating, the beauty so serene - a thorough experience of "Heavenly Atmosphere". I was so engrossed and ecstatic, I didn't know when I have reached the grand courtyard of god's place. Oh! What a sight! An absolute conglomeration of the beauties and the beautiful objects. I was looking at everything with admiration. Why the things cannot be same on the earth? Suddenly, some body told me that your time has come to meet the god. He was also kind enough to tell me to revise my questions, as the time would be very specific and limited. I started recollecting and revising all my questions related to myself, health, family, future, country, people - whatever I thought of my need, convenience and to have name in earth.

At last the time came when I was in front of the god. I felt as If I was freezed, numb and my mental faculty had gone to sleep! Oh God! I have so many questions to ask!! I will never have this opportunity!! With all strength, I tried all my faculties to work and help. Ah! Nothing is coming in my mind - I could only ask the god - if everything is your creation, then why earth is no where in beauty as of heaven? Why there is so much miseries, poverty, fighting and environmental calamities? Why you have made so much distinction in the creation? How earth can be made as that of heaven - where there will be no hatred, no fighting, no calamities, no poverty, it is peace, happiness, and beauty everywhere. Suddenly, there was tingling of the mobile alarm at 6 O’Clock. The day begins – another day - I have forgotten my questions. I have to leave with it - that's reality.
