

My School My Heart

My school is like my heart beat
It never stops teaching
It always keeps going.
Of course never looking behind
It shows right path of ambition,
To look ahead for achievements.

Our school is aiming high,
Keeping the motto Spread the 'light.
Facing the tasks to win the high
No matter what may come
My school my heart

Small children cry in fear
Of course, not knowing the reason for
My school will make them wonder,
After they open eyes before every one
'My school my heart

To be perfect and bright in life
And to keep this wheel moving
It has committed principal and teachers
'My school my heart'

Students play in the field
Working hard to win for school
To be topper of the top
They put their efforts tirelessly
'My school my heart
