

SMILE

Smiling is infectious, you catch it like the flu,
When someone smiled at me today, I started smiling too
I passed around the corner and someone show my grin
And when he smiled I realized I'd passed on to him
I thought about that smile and then I realized its worth
A single smile, one just like mine, could travel around the earth
So if you feel smile begin, don't get it undetected
Let's start an epidemic quick and get the world infected.

Smile at yourself, it infects others to smile louder
Smile at yourself, it takes oneself to see the world from
other's perspectives.
